

Happy Feet
Happy Customers

"For more than 30 years, I suffered from severe over pronation. Custom made boots from Elio's relieved my chronic hip and shoulder pain. Finally, I can walk with no brace. I can work in comfort and stand for 10 hours a day."

Mike Pisano, custom footwear client

"For years my feet ached from standing all day at work. I visited Elio's to meet their foot specialist. An analysis showed that my shoes were wrong for me. Elio's provided a solution with proper shoes, a perfect fit, and custom made orthotics installed in my shoes. Today, I am pain-free. It is a joy to walk without pain."

Shirley Witt, custom foot orthotics client

"I am extremely pleased with the fit and comfort of my custom boots made at Elio's. As a Diabetic with a Charcot foot condition and ulcerations, I feared that I would never wear boots or shoes ever again. Elio's helped make my feet happy."

Wayne White, custom shoes client

Doctor Referral Form

A doctor's referral may be required to qualify for insurance plans to cover some costs of your foot comfort solution. Please visit your doctor to complete this referral form for othotics or a custom footwear solution from Elio's.

FOOT PROBLEMS? WE CAN HELP

The pedorthists from Elio's offer custom solutions created for each patient. Our trained experts cover a wide range of foot care:

- Arthritis
- Diabetes
- Bunions
- Heel pain
- Shin splints
- Plantar fasciitis
- Achilles tendonitis
- Claw toes or hammer toes
- Sports injuries
- Corns and calluses

FOOTWEAR MODIFICATIONS

If you require footwear modifications, Elio's on site service will assist with your special needs. For over 40 years, Elio's has worked with

medical professionals in Niagara.

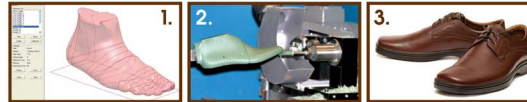

As the premier choice for prescription shoe modifications, Elio's assists patients with Lower Limb Discrepancy (LLD) and many other medically prescribed modifications. For specific modifications or foot conditions, contact Elio's to book a no charge consultation.

CUSTOM ORTHOPEDIC FOOTWEAR

Elio's offers a custom footwear service on-site for people with unique needs.

As Niagara's leader in custom footwear, Elio's has been setting the standards in craftsmanship since 1970. Our production process draws from the best of traditional and modern shoemaking techniques.

Visit Elio's Foot Comfort Centre for a demo of our high tech shoe fitting system. Our state of the art system scans a patient's foot to create an exact digital replica, allowing shoemakers to produce custom made footwear to fit perfectly.

Alternatively, Elio's pedorthist and master craftsman can team up for hands-on casting for custom solutions. Traditional casting techniques using bio foam, plaster, or wax can be used as required.

CUSTOM MADE ORTHOTICS FABRICATED ON-SITE

- The first step for a person suffering from a foot, leg or back ailment is to get assessed by a certified health professional.
- Elio's certified foot specialist does a full scale assessment to see if a foot orthotic would help you find relief.
- Our custom made orthotics are made on-site and help in restoring motion, regaining stability and relieving pain.
